Contagious respiratory illnesses like COVID and the FLU continue to be a concern and NAE wants to make sure that we are taking all preventive measures necessary to prevent the spread of these viruses. To ensure the safety of our employees and visitors, the following measures are to be followed.

1. Please wash your hands or use hand sanitizer often
2. Cover our mouth and nose with a tissue when you cough or sneeze.
3. Consider wearing a well-fitting mask which can reduce the spread of respiratory germs
4. If you feel sick or think you have symptoms, we recommend not attending the class. (We can reschedule)

Thanks for helping us keep our workplace safe!
